Contouring Foam Kit

Tessellated Shape System	
For additional contouring behind the existing back support upholstery padding.	
Includes: 3x firm base building blocks, 3x medium density building blocks, 3x overlay building blocks, 6x 7.5 degree wedges, and 5x Velcro fastening straps.	
SKU: 1250-3955-000 HCPCS: K0108 MSRP: \$250	

Mounting on Power Wheelchairs

If the power chair doesn't have canes, please use our Power Chair Adapter Mount:

Power Chair Adapter Mount	
The Power Chair Adaptor Mount adds 1/2" (1.5cm) of seat depth, please account for this when choosing this option.	
Please refer to back support selection (page 4) and add the thickness to the seat depth when using these back supports with the adaptor mount. If you are unsure if your chair is compatible with these options, please reach out to your rep.	
Quantum TRU-Balance 3 and TRU-Balance 4	
Sedeo Pro (using the J3 Fixed Back Adapter Pro, or J3 Power/Manual Recline Back Adapter Pro)	
SKU: 1259-2810-200 HCPCS: E2617 MSRP: \$0*	

If the power chair has full length canes, there's the option to use Quad Mount or XLella hardware (continue on next page)

Mounting on Power Wheelchairs

Permobil with Direct Backrest Frame: On-Chair (new chair order) SKU: 106072-99-0	After-Market (when ordering for an existing chair) SKU: PERM-321190
Invacare/Motion Concepts with Freedom Planar Back Interface We recommend you order the 'Flush Mount, Freedom Back and Seat Interface Hardware for Power Recline: 'TRC2629' from Motion Concepts	
Amylior Signature	

Note: Not sold by Spex - Contact wheelchair distributor directly

Mounting on Seat Canes

If the power chair has full length canes, there's the option to use Quad Mount or XLella hardware:

Quad Mount (default)		Quad Mount Fixed	
Features Quick-Release mechanism. Can be positioned so no seat depth is lost. Seat depth adjustment of 1.6" (4cm).		Can be positioned so no seat depth is lost. Seat depth adjustment of 1.6" (4cm).

Back Support Contouring Charts

You can record the amount of contouring cubes used. Fill out this form and enter the number of cubes used in each pocket and save for future reference. Or go online to shaperator.com to configure the shaping accordingly to the client.

Note:

Use all charts below if recording contouring cubes used for the **Spex SuperShape Back Support**.
Use only the left hand chart if recording contouring cubes used for the **Spex Classic Back Support**.

Example

Write the number of PINK(P) foam pads

If no pads are inserted

Top of back

Left side of user

If a positioning wedge is used, mark the area

If it's a shorter back height with less pockets, cross the bottom cubes out
